Comprehensive Annual FINANCIAL REPORT

Introductory Section

To the members of the Charlotte-Mecklenburg Board of Education and citizens of Mecklenburg County, North Carolina

October 28, 2015

In compliance with the *Public School Laws of North Carolina,* the Comprehensive Annual Financial Report of the Charlotte-Mecklenburg Board of Education (Board) for the year ended June 30, 2015, is herewith submitted. Responsibility for accuracy, completeness and clarity of the report rests with management.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The report has been prepared by the Finance Department following the requirements and guidelines prescribed by the Governmental Accounting Standards Board. We believe the data presented is accurate in all material respects and that it is presented in a manner designed to fairly reflect the financial position and results of operations of the Board. All disclosures necessary to enable the reader to gain the maximum understanding of the Board's financial activity have been included.

REPORTING ENTITY

The Charlotte-Mecklenburg Board of Education has responsibility and control over the activities related to public school education in Mecklenburg County, North Carolina. The members of the Board are elected by the public and have decision-making authority. Although the County levies all taxes, the Board determines how the school system will spend the funds generated for schools. The County cannot modify the school system's budget, nor is the County entitled to share in any surpluses or required to finance any deficits of the school system. For these reasons, the Board is not fiscally dependent on the County and therefore is recognized as a primary government, as defined by the Governmental Accounting Standards Board. The Board also receives funding from state and federal government sources and must comply with the affiliated requirements of those funding entities. The Board does not have any component units, nor is it a component unit of any other entity.

In 1997 the North Carolina General Assembly passed legislation creating charter schools, an alternative to traditional public schools. Charter schools receive a per-pupil allocation of local county funds as defined by the legislation. Although County funds to the charter schools pass through the Board, the Board has no authority or responsibility related to the charter schools; therefore, they are not a component unit of the Board.

LOCAL ECONOMIC CONDITION AND OUTLOOK

Mecklenburg County is the largest county in the state, with a population of more than 1,012,000. The principal city, Charlotte, is the nation's 16th largest city with a population of almost 800,000. Together, the city and county are the heart of a major metropolitan center in the Southeast, which has 7.5 million people living within a 100-mile radius.

It is also a regional economic powerhouse that is surprisingly diversified. Although widely known as a banking town – it is the second-largest banking center in the U.S. behind New York, controlling more than \$2.2 trillion in assets – the economy of Charlotte and surrounding Mecklenburg County has a broad and diverse base. Construction, educational services, finance and insurance, information, manufacturing, real estate, retail, transportation and warehousing – all of these sectors are well represented in the regional economy, with no single sector exceeding 12 percent of the total.

Charlotte is also home to some of the world's biggest companies. Five Fortune 500 companies are headquartered in Mecklenburg County and two more Fortune 500 companies are headquartered in the Charlotte metropolitan area. There are also 10 Fortune 1000 companies headquartered in Charlotte and the Charlotte-Mecklenburg area is home to another 42 companies with more than \$1 billion in annual sales. More than 4,220 companies with facilities in Charlotte-Mecklenburg have more than \$1 million in revenue each year. More than 958 international companies in the region represent 45 countries and employ more than 69,000 people.

In addition to its best-known American company, Bank of America, Charlotte is also home to a branch of the Federal Reserve Bank of Richmond. Many of the top 20 banks in the U.S. also have operations here. The city is an important transportation and distribution center, with Charlotte Douglas International Airport coming in as the eighth-busiest airport (in total passengers) and sixth most-active in total operations. Charlotte is home to more than 500 trucking and transportation firms and is the center of the country's largest consolidated rail system, with Norfolk Southern Railway and CSX Transportation linking Charlotte with 23 states in the Eastern U.S.

The area's economic breadth and diversity are also visible in Charlotte-Mecklenburg Schools (CMS). The consolidated city-county public school district serves approximately 145,363 students (including pre-kindergarten) in Charlotte and Mecklenburg County, including the towns of Pineville, Matthews, Huntersville, Cornelius, Mint Hill and Davidson. An additional 2,406 students are projected for the 2015-2016 school year.

The Charlotte Mecklenburg School System has an inventory of buildings constructed as early as 1922 to 2015. The majority of the school buildings were constructed between 1990 and 2009. The most recent construction project was Palisades Elementary school in the 2015 school year. CMS also built modular structures to facilitate college level education programs at Central Piedmont Community College and UNC Charlotte.

Students in CMS come from 158 countries and speak 175 native languages. The district is racially as well as culturally diverse: 42 percent of students are African-American, 32 percent are Caucasian, 18 percent are Hispanic, 5 percent are Asian and 3 percent are American Indian or multiracial.

The district has 28 high schools, 4 special schools, 30 middle schools, 9 pre-k-8 schools, and 93 elementary schools. These schools offer nine magnet programs in 37 full or partial magnet schools. The district's operating budget in 2014-2015 was \$1.3 billion, with a budgeted per-pupil expenditure of \$8,473. CMS is also among the largest employers in Mecklenburg County, with more than 18,000 employees, including more than 9,180 teachers.

The political landscape for Charlotte-Mecklenburg Schools, like other districts in North Carolina, continued to be unsettled in 2014-2015. Multiple bills affecting public education were introduced in the North Carolina General Assembly. Although there were fewer changes to public schools during this period than a year earlier, a high level of legislative engagement in public education seems likely to continue in North Carolina.

The Board of County Commissioners approved an increase of \$31 million in operating funding for a total allocation of \$388 million.

During the 2014-2015 school year, the district experienced a change in leadership with the departure of Superintendent Heath Morrison in November. Ann Clark, the Deputy Superintendent, was named Superintendent with a contract through June 2016.

Academic progress and initiatives

Academic performance across the district showed improvement in 2014-2015, with many key indicators rising during the year.

For 2014-2015, Charlotte-Mecklenburg Schools had five schools in the state's top 10 schools ranked by growth index. The growth index measures how much and how quickly students are learning. A growth-index ranking is assigned to each of the 2,497 charter and traditional public schools in North Carolina.

Independence High was the state's highest-ranking high school on the growth index. Community House Middle was the highest-ranked middle school on the index. Other CMS schools in the top 10 were South Mecklenburg, Ardrey Kell and South Charlotte Middle. The only other district in the state with more than one school in the top 10 was Wake, which had two high schools on the list.

During the 2014-2015 year, CMS emphasized a Balanced Literacy approach in the elementary schools, a disciplinary literacy approach at the secondary level and on the use of student formative data for science and math at all levels. More than 4,000 teachers attended a summer learning opportunity focused on the components of higher standards for reading, writing, speaking and listening for elementary students. Secondary-level teachers used a nationally recognized framework to incorporate literacy into all content areas.

Charlotte-Mecklenburg Schools had the highest scores in math among 21 urban districts participating in the National Assessment of Educational Progress (NAEP) and was second-highest in reading. CMS also outpaced the state of North Carolina in math and reading. The assessments, given to a sample of fourth-and eighth-graders in a group of districts across the country, are administered every other year and were reported in December 2013 (thus, this is the most recent data available). The 2013 assessments marked the 10th year that CMS has participated in the NAEP Trial Urban District Assessment, which collects scores for about two dozen cities. Except for those cities, NAEP scores are reported by state. The National Assessment of Educational Progress is often called the nation's report card because it allows direct comparison of cities and states.

The district-wide cohort graduation rate rose for the sixth consecutive year, reaching 88 percent. The statewide graduation rate for the same period was 85.4 percent. The graduate rate has increased by 18.1 percentage points since 2010. Graduation rates also increased for all subgroups of students.

The district also showed gains in proficiency on End-of-Course (EOC) and End-of-Grade (EOG) assessments for the 2014-2015 school year, according to data released by the North Carolina Department of Public Instruction. One hundred and thirty schools, or 82.3 percent, met or exceeded expectations for academic growth.

CMS also outpaced the state in the percentage of students scoring at levels indicating college and career readiness. It was the second year of a new grading scale for state tests that ranges from Level 1 (the lowest) to Level 5, replacing a prior four-level system of grading. Students who score at Level 4 or Level 5 are considered to be college and career-ready.

The percentage of CMS students scoring Level 4 or 5 on math tests in grades three through eight increased to 49.4 percent, up 1.1 points from 48.3 percent a year earlier. CMS outperformed the state composite rate of 44.1. CMS also showed increases in every grade except grade three, where scores declined by 2.2 percentage points from a year earlier.

The composite number of students who scored Level 4 or 5 on science tests in grades five and eight increased to 62.4 percent, up 2.7 percentage points from a year earlier. The CMS science composite score was higher than the state composite of 59.1 percent.

In reading, the composite scores for students scoring a Level 4 or 5 in grades three through eight rose slightly to 46 percent, up 0.6 percentage point from a year earlier. Scores increased in all grades except grade five, which remained unchanged year over year. The CMS composite score for reading was higher than the state composite score of 45.1 percent.

In other areas, results were mixed. The performance of graduating seniors on the SAT, a test used to determine college readiness by colleges and universities, declined in all three tested areas of reading and math. The average score dropped by 25 points, pushing CMS below state and national averages.

On another college-readiness test, the ACT, Charlotte-Mecklenburg Schools saw small gains in 2015 in composite scores. District-wide scores increased slightly in English and reading but declined in science and math, according to data released by the independent testing group ACT, Inc.

FINANCIAL AND BUDGETARY POLICIES

Financial Reporting: CMS reports its financial activities through the use of fund accounting. This is a system wherein transactions are reported in self-balancing sets of accounts to reflect the results of activities. (See Note I in the Notes to Basic Financial Statements for a summary of significant accounting policies and a description of fund types).

The cost of public school education in North Carolina is financed primarily by the state, which establishes minimum programs. Local funds, in varying amounts by district, supplement the basic program and are generated primarily from the general tax levies of the county. Local boards of education in North Carolina have no direct tax levying and limited borrowing authority.

Accounting records of the school system must be maintained in a uniform state format. Reports of transactions of state and federal funds and details of disbursements from these funds are submitted monthly to the North Carolina Department of Public Instruction for review. Interim financial statements are presented monthly to the Board of Education. Annual reports are prepared as requested for special grants and programs.

Financial activities throughout the year are controlled in accordance with the **North Carolina School Budget and Fiscal Control Act** which requires a pre-audit procedure to ensure availability of funds prior to issuance of purchase orders or payment of claims. We believe that the Board's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. Additionally, the activity funds of individual schools are examined each year by the internal audit staff for compliance with applicable federal and state regulations, along with local board policy.

State law (G.S. 115C-432) establishes that the district's budget resolution shall conform to the uniform budget format established by the State Board of Education. State law (G.S. 115C-429) allows the board of county commissioners to allocate part or all of its' appropriation by purpose/function code as defined in the uniform budget format. Mecklenburg County allocates all their local funding to CMS by purpose/function code. State and Federal funds are allocated to the district by program/report code as defined in the uniform budget format.

The **North Carolina School Budget and Fiscal Control Act** requires the Board accounts to be maintained on an encumbered budgetary basis. Encumbrances are commitments for goods which have not been received or for services not yet rendered. The GAAP financial statements in the report do not include encumbrances; the budgetary basis statements do. Reconciliations between these bases are included in the Notes to Basic Financial Statements.

Internal Control Structure: The CMS financial management staff is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the school system are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management. As a recipient of federal, state, and local financial assistance, the school system is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management.

INDEPENDENT AUDIT

The financial statements have been audited by Dixon Hughes Goodman LLP, independent certified public accountants, whose opinion is expressed on pages 1 - 3.

The Charlotte-Mecklenburg Board of Education complies with the requirements of the Single Audit Act for which a separate report is issued.

FINANCIAL REPORTING AWARDS

Since 1977 and 1981, respectively, our Comprehensive Annual Financial Report has earned the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting award. These awards are made only to governmental units which publish a comprehensive annual financial report that is easily readable, efficiently organized, and conforms to program standards as well as satisfy generally accepted accounting principles and applicable legal requirements. The awards are valid for a period of one year only. We believe this report continues to conform to GFOA and ASBO requirements, and we will submit it for determination of its eligibility for renewed awards.

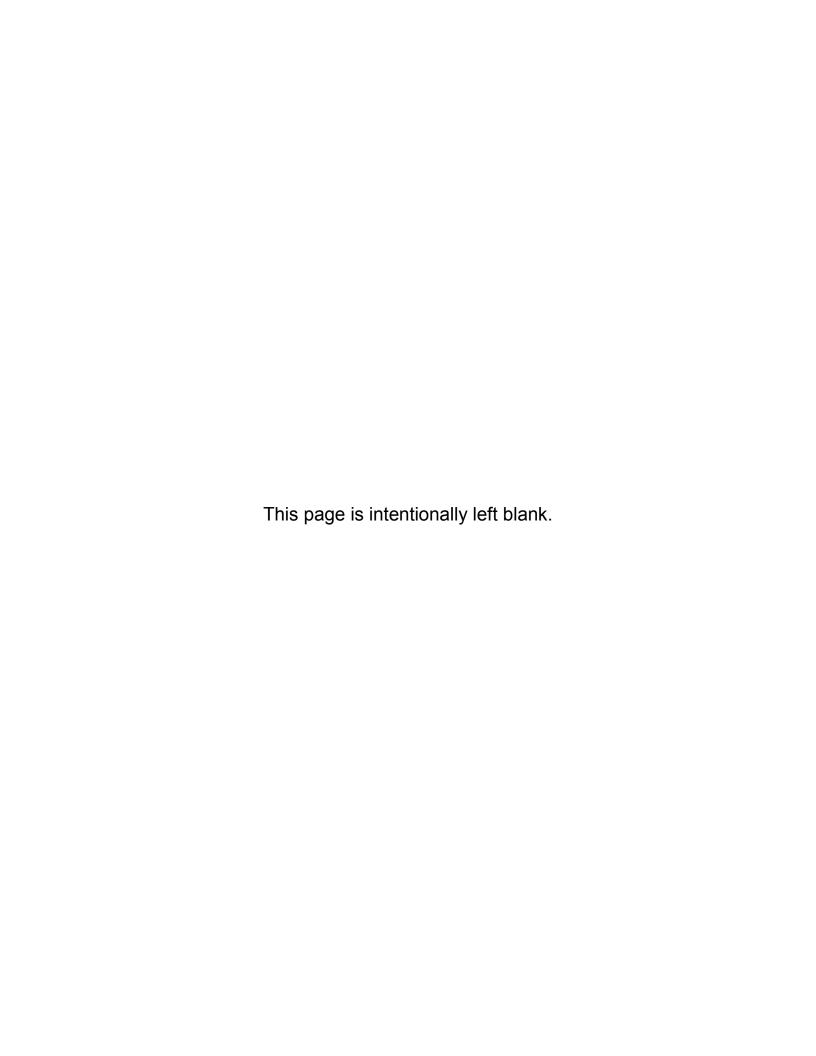

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire finance staff. We would like to express appreciation to the finance team for their assistance in the timely closing of the school system's financial records and to all individuals who assisted in the preparation of this report.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

To the Charlotte-Mecklenburg Board of EducationCharlotte, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Charlotte-Mecklenburg Board of Education**, North Carolina, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the **Charlotte-Mecklenburg Board of Education's** basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statement that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the **Charlotte-Mecklenburg Board of Education** as of June 30, 2015, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General, State Public School, Direct Federal Grants and Special Revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Change in Accounting Principle

As discussed in Note 19 to the financial statements, beginning balances were restated due to the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, in 2015. Our opinion is not modified with respect to these changes.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 through 10 and the Schedule of the Proportionate Share of the Net Pension Liability and the Schedule of Board Contributions on pages 48 and 49, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the **Charlotte-Mecklenburg Board of Education's** basic financial

statements. The introductory section, individual non-major fund financial statements, budgetary schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual non-major fund financial statements and budgetary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual non-major fund financial statements and budgetary schedules are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2015 on our consideration of **Charlotte-Mecklenburg Board of Education's** internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the **Charlotte-Mecklenburg Board of Education's** internal control over financial reporting and compliance.

Dixon Hughes Goodman LLP

Winston-Salem, North Carolina

October 28, 2015

INTRODUCTION

Our discussion and analysis of Charlotte-Mecklenburg Board of Education's (the Board or CMS) financial performance provides a narrative overview of the School Board's financial activities for the fiscal year ended June 30, 2015. This information should be read in conjunction with the audited financial statements included in this report. All amounts, unless otherwise indicated, are presented in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The Board's enrollment increased by 1,621 (or 1.14%) from the previous year based on ninth month enrollment.
- The assets of the Board exceeded its liabilities at the close of the fiscal year by \$1.69 billion.
- The Board's total net position decreased by \$195.36 million, primarily due to the implementation of GASB 68, Accounting and Financial Reporting for Pensions.
- As of the close of the current fiscal year, the Board's governmental funds reported a combined fund balance of \$99.55 million, an increase of \$5.30 million in comparison with the prior year. Approximately 25.19% of this total amount, or \$25.08 million, is available for spending at the government's discretion.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements of the Charlotte-Mecklenburg Board of Education consist of four components. They are as follows:

- Independent Auditor's Report
- Management's Discussion and Analysis
- Basic Financial Statements
- Required Supplemental section that presents budgetary statements for governmental and proprietary funds

The Basic Financial Statements include two types of statements that present different views of the Board's finances. The first is the government-wide statements. The government-wide statements are presented on the full accrual basis of accounting and include the Statement of Net Position and the Statement of Activities. The Statement of Net Position includes all the Board's assets and liabilities. Assets and liabilities are classified in the order of relative liquidity for assets and due date for liabilities. This statement provides a summary of the Board's investment in assets and obligations to creditors. Liquidity and financial flexibility can be evaluated using the information contained in this statement. The Statement of Activities summarizes the Board's revenues and expenses for the current year. A net (expense) revenue format is used to indicate to what extent each function is self-sufficient.

The second type of statement included in the basic financial statements is the *fund financial statements*, which are presented for the Board's governmental and proprietary funds. These statements present the governmental funds on the modified accrual basis of accounting, measuring the near term inflows and outflows of financial resources and what is available at year-end to spend in the next fiscal year. The proprietary funds are presented on the full accrual basis of accounting. The fund financial statements focus on the Board's most significant funds. Because a different basis of accounting is used in the government-wide statements, reconciliation from the governmental fund financial statements to the government-wide statements is required. The government-wide statements provide information about the Board as an economic unit while the fund financial statements provide information on the current financial resources of the Board's funds.

Government-Wide Statements

The government-wide statements report information about the Board as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position presents information on all of the Board's assets and liabilities, with the difference between the two reported as Net Position. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net position and how it has changed during the most recent year. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or declining. To assess the Board's overall health, you need to consider additional non-financial factors such as changes in Mecklenburg County's property tax base and the condition of its school buildings and other physical assets.

The Board's activities are divided into two categories in the government-wide statements:

- Governmental activities: Most of the Board's basic services are included here, such as regular and special education, transportation, and administration. County, state and federal funds finance most of these activities.
- Business-type activities: The Board charges fees to help cover the costs of certain services it provides. Child Nutrition and After School Enrichment are included in the Board's business-type activities.

The government-wide statements are shown on pages 11-13 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Board's funds, focusing on its most significant or "major" funds – not the Board as a whole. Funds are accounting devices the Board uses to keep track of specific sources of funding and spending on particular programs.

- Some funds, such as the State Public School Fund, are required by state law.
- The Board has established other funds to control and manage money for a particular purpose or to show that it is properly using certain revenues, such as in the Federal Grants fund.

Charlotte-Mecklenburg Board of Education has two types of funds:

Governmental Funds: Most of the Board's basic services are included in the governmental funds, which generally focus on two things – how cash and other assets can readily be converted to cash flow in and out and the balances left at year-end that are available for spending. As a result of this current financial resource focus, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the end of the governmental funds statements, in the form of reconciliation, explains the relationship (or differences) between the government-wide and the fund financial statements. The Board has several governmental funds: the General Fund, the State Public School Fund, the Individual Schools Fund, the Capital Projects Fund, the Special Revenue Fund, the Direct Federal Grants Fund and the State Administered Federal Grants Fund.

The governmental fund statements are shown on pages 14-27 of this report.

Proprietary Funds: Services for which the Board charges a fee are generally reported in the proprietary funds. The proprietary fund statements are reported on the same full accrual basis of accounting as the government-wide statements. Charlotte-Mecklenburg Board of Education has two proprietary funds, both enterprise funds. They are the Child Nutrition Program and the After-School Enrichment Program.

The proprietary fund statements are shown on pages 28-30 of this report.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position is an indicator of the fiscal health of the Board. Assets exceeded liabilities by \$1,694,006 thousand as of June 30, 2015. The largest component of net position is net investment in capital assets, of \$1,881,809 thousand. It comprises 111.08% of the total net position due to GASB 68, Accounting and Financial Reporting for Pensions, adjustment.

Following is a summary of the Statement of Net Position:

Condensed Statement of Net Position

Unrestricted net position	(278,217)		(37,853)	•	27,739	-	30,205		(250,478)		(7,648)	
Total net position	\$ 1,657,251	\$	1,850,681	\$	36,755	\$_	38,682	\$	1,694,006	\$	1,889,363	

Note that the total net position decrease of \$195.36 million during the year resulted primarily from the pension adjustment required by GASB 68, Accounting and Financial Reporting for Pensions. Also, note that the Board carries capital assets for which Mecklenburg County carries the offsetting debt.

The following table shows the revenue and expenses for the Board for the current and previous fiscal year.

Total governmental activities generated revenues of \$1.37 billion while expenses in this category totaled \$1.29 billion for the year ended June 30, 2015. Comparatively, revenues were \$1.29 billion and expenses totaled \$1.26 billion for the year ended June 30, 2014. After transfers to the business-type activities, the increase in net position of governmental activities stands at \$84.87 million at June 30, 2015, compared to an increase of \$31.64 million in 2014 prior to the GASB 68 restatement, Accounting and Financial Reporting for Pensions. The overall decrease in net position of governmental activities stands at \$193.43 million.

Instructional expenses comprised 80.58% of total governmental-type expenses while support services made up 19.31% of those expenses for 2015. County funding comprised 36.12% (28.25% operating and 7.87% capital) of total governmental revenue while state funding added another 53.13% for 2015. In 2014, county funding was 35.15% (27.73% operating and 7.42% capital) of total governmental revenue while state funding added another 54.54%. Most of the remaining 10.75% of total governmental revenue for 2015 consists of federal funding and revenue generated from other local sources. Comparable revenue from those sources in 2014 generated 10.48% of total governmental revenue.

Business-type activities generated revenue of \$80.73 million and had expenses of \$77.63 million for the year ended June 30, 2015. Comparatively, revenues were \$78.53 million and expenses totaled \$78.72 million for the year ended June 30, 2014. Net position increased in the business-type activities by \$3.62 million after transfers in from the governmental activities of \$517 thousand, compared to an increase of \$322 thousand in 2014, prior to the GASB 68 restatement, Accounting and Financial Reporting for Pensions. The overall decrease in net position of business-type activities stands at \$1.93 million.

FINANCIAL ANALYSIS OF THE BOARD'S FUNDS

Governmental Funds:

The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Board's financing requirements.

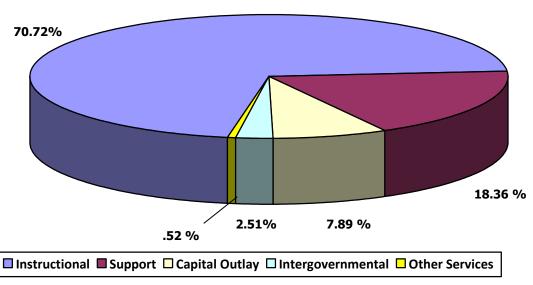

The Board's governmental funds reported a combined fund balance of \$99.55 million, an increase of \$5.30 million from the prior year. The Board's General Fund had revenues that exceeded expenditures, thus the total fund balance increased. At the close of the year, state funding was \$739.65 million, compared to \$711.0 million in 2014, an increase of approximately \$28.65 million for the year. County funding was \$496.47 million, compared to \$452.0 million in 2014, an increase approximately \$44.47 million for the year. Federal grant funding, which includes both Direct Federal Grants and State Administered Federal Grants was \$101.60 million, compared to \$89.21 million in 2014, an increase of \$12.39 million for the year.

At the end of the year, the General Fund increase in net fund balance, \$2.09 million, is primarily due to decrease in longevity liability, compared to an increase of \$6.22 million in 2014. The Capital Projects Fund increase in net fund balance, \$1.42 million, is primarily due to an increase in special capital outlay funds from the county, compared to a decrease of \$2.68 million in 2014. The Special Revenue Fund increase in net fund balance, \$2.05 million, is primarily due to funds received to cover future program cost compared to a decrease of \$3.67 million in 2014. The Direct Federal Grants Fund decrease in net fund balance, \$411,000, is primarily due to an increase in planned program cost for the Medicaid program, compared to an increase of \$1.71 million in 2014.

The Board's business-type funds reflected a total increase in net position of \$3.62 million. The Child Nutrition Program reflected an increase in net position over the last year of \$2.56 million. This was mainly due to the increase in USDA subsidies and capital contributions. The After School Enrichment Program reflected an increase in net position of \$1.06 million.

Categorization of Expenditures for Governmental Funds

(presented on the modified accrual basis of accounting)

General Fund Budgetary Highlights

Over the course of the year, the Board did not adopt any budget amendments for the General Fund. Additional information related to Budget activity is included in Note I, Section D in the Notes to the Basic Financial Statements. The amount estimated in the general fund adopted budget for interest revenue was overstated when compared with the amount of interest earned, causing a budget variance. This was due to a decline in the interest rates for the year. But in contrast, the estimated amount included in the adopted budget for restitution versus what was actually earned for these revenues sources was understated.

Capital Assets

At June 30, 2015 CMS had \$2.74 billion invested in a broad range of capital assets, including land, buildings and improvements, and equipment. This amount represents a net increase (including additions, deductions and depreciation) of \$38.08 million. This is largely due to new construction, specifically the construction of two elementary schools (Lawrence Orr and Parkside Elementary), the reopening of two elementary schools (Oakhurst STEAM Academy and Starmount Academy of Excellence), and the restoration projects in various other schools.

Summary of Capital Assets as of June 30, 2015 and 2014

(amounts expressed in thousands)

	Governmental Activities				Business-	type /	Activities		Total Primary Government		
		6/30/15 6/30/14		6/30/15		6/30/14	6/30/15			6/30/14

Total	\$	1,873,308	\$	1,835,772	\$ 9,016	\$	8,477	\$	1,882,324	\$	1,844,249

Additional information related to Capital Assets activity is included in Notes 5 and 10 in the Notes to the Basic Financial Statements.

Debt Outstanding

During the year the Board's debt decreased by \$5.13 million due mainly to the decrease in installment purchases. The Board is limited by North Carolina General Statutes with regards to the types of debt it can issue and for what purpose that debt can be used. The County holds all debt issued for school capital construction. Additional information related to Debt Outstanding is included in Note 14 in the Notes to the Basic Financial Statements.

Economic Factors

County funding is a major source of operating revenue for CMS. Therefore the County's economic outlook directly affects that of the school district. The County's unemployment rate has decreased by 1.1% from 6.8% in 2014 to 5.7% in 2015. The County's unemployment rate is below the state rate of 5.8%, but remains above the national rate of 5.3%. In 2014, there were 13,134 new jobs created in Charlotte-Mecklenburg. Charlotte-Mecklenburg enjoys a balanced economy that encompasses many sectors, as well as companies that range in size from multinational to microbusiness. Diverse business interests, once thought to shelter the County from problems that resulted from slowdowns in certain sectors, are still showing signs of vulnerability. However, the state remains in a relatively better position than some states.

Requests for Information

This report is intended to provide a summary of the financial condition of Charlotte-Mecklenburg Board of Education. Questions or requests for additional information should be addressed to:

Sheila W. Shirley, Chief Financial Officer Charlotte-Mecklenburg Government Center 600 East Fourth Street, Fifth Floor Charlotte, NC 28202

CHARLOTTE-MECKLENBURG BOARD OF EDUCATION RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2015

Total fund balancesgovernmental funds			\$	99,547
The cost of capital assets (land, buildings, furniture and equipment)				
purchased or constructed is reported as an expenditure in the				
governmental funds. The Statement of Net Position includes those capital				
assets among the assets of the CMS as a whole. The cost of those				
capital assets are allocated over their estimated useful lives (as				
depreciation expense) to the various programs reported as				
governmental activities in the Statement of Activities. Because				
depreciation expense does not affect financial resources, it is not				
reported in governmental funds.				
Cost of capital assets	\$	2,713,076		
Accumulated depreciation	_	(839,768)		1,873,308
Deferred outflows of resources related to pensions				65,335
Long-term liabilities applicable to the CMS governmental activities are not				
due and payable in the current period and accordingly are not reported				
as governmental fund liabilities. All liabilities, both current and long-term,				
are reported in the Statement of Net Position.				
Liability for compensated absences	\$	(73,343)		
Net pension liability		(65,496)		
Deferred inflows of resources related to pensions		(239,941)		
Energy Performance Contract		(1,644)		
Obligations under installment payments		(349)		
Obligations under capital lease	_	(166)		(380,939)
Net Position			\$ <u></u>	1,657,251

The notes to the basic financial statements are an integral part of this statement.

CHARLOTTE-MECKLENBURG BOARD OF EDUCATION RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE WITH THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2015

(Amounts expressed in thousands)

Total net change in fund balances governmental funds		\$	5,302
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for government-wide activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which capital outlays exceed the depreciation in the period.			
Capital outlay/equipment	\$	102,338	
Depreciation expense	_	(64,214)	38,124
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities.			65,335
Increase in compensated absences Proceeds from disposal of capital assets			(1,292) (56)
Loss on disposal of capital assets			(532)
Reduction in obligations under energy contract			510
Increase in pension expense			(27,142)
Increase in installment purchase			(493)
Reduction in obligations under capital leases and installment purchase			5,109
Change in net position of governmental activities		\$	84,865

The State Public School Fund paid salaries and benefits of \$46 thousand to administrative personnel of the Child Nutrition Fund during the fiscal year. The General Fund paid \$471 thousand for uncollectible meal sales. The payments are reflected as a transfer on the Statement of Revenues, Expenses and Changes in Fund Net Position, page 29. The Child Nutrition Fund received donated commodities with a value of \$3.9 million during the fiscal year. The receipt of the commodities is recognized as a Non-Operating Revenue.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Charlotte-Mecklenburg Board of Education conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies.

A. Reporting Entity

The Charlotte-Mecklenburg Board of Education (the Board or CMS) is a Local Education Agency empowered by State law [Chapter 115C of the North Carolina General Statutes] with the responsibility to oversee and control the activities related to public school education in Charlotte-Mecklenburg, North Carolina. The Board receives state, local, and federal government funding and must adhere to the legal requirements of each funding entity. Although Mecklenburg County (the County) levies all taxes, the Board determines how the school system will spend the funds generated for schools. The County cannot modify the school system's budget, nor is the County entitled to share in any surpluses or required to finance any deficits of the school system. For these reasons, the Board is not fiscally dependent on the County and therefore is recognized as a primary government. The Board also receives funding from state and federal government sources and must comply with the requirements of those funding entities.

B. Basis of Presentation

Government-Wide Statements: The Statement of Net Position and the Statement of Activities display information about the Board. These statements include the financial activities of the overall government. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the governmental and business-type activities of the Board. Governmental activities generally are financed through intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Board and for each function of the Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Board's funds. Separate statements for each fund category – *governmental* and *proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The Board reports the following major governmental funds:

General Fund: The General Fund is the general operating fund of the Board. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. This fund is the "Local Current Expense Fund," which is mandated by State law [G.S. 115C-426].

State Public School Fund: The State Public School Fund includes appropriations from the Department of Public Instruction for the current operating expenditures of the public school system.

Individual Schools Fund: The Individual Schools Fund includes revenues and expenditures of the activity funds of the individual schools. The primary revenue sources include funds held on the behalf of various clubs and organizations, receipts from athletic events, and proceeds from various fund raising activities. The primary expenditures are for athletic teams, club programs, activity buses, and instructional needs.

Capital Projects Fund: The Capital Projects Fund accounts for financial resources to be used for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds). It is mandated by State law [G.S. 115C-426]. Capital projects are funded by Mecklenburg County appropriations and proceeds of Mecklenburg County bonds issued for public school construction.

Direct Federal Grants Fund: The Direct Federal Grants Fund is used to account for grant monies administered through the US Department of Education, US Department of Health and Human Services and other federal grants from various government agencies.

Special Revenue Fund: The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes including local, state, and federal government grants and private donations received from individual and corporate donors.

The Board reports the following major enterprise fund:

Child Nutrition Program: The Child Nutrition Program is used to account for the food service program within the school system.

C. Measurement Focus and Basis of Accounting

Government-Wide and Proprietary Fund Financial Statements: The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Board gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Board considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. These could include federal, state, and county grants, and some charges for services. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Board funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net positions available to finance the program. It is the Board's policy to first apply cost-reimbursement grant resources to such programs and then, general revenues.

All governmental and business-type activities of the Board follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

D. Budgetary Data

The **North Carolina School Budget and Fiscal Control Act** requires separate budgeting and accounting for resources entitled "Local Current Expense" (General), "State Public School", "Capital Projects", "State Administered Federal Fund", "Special Revenue Fund" and "Direct Federal Grants." These represent the principal operating resources available to the Board. Formal budgetary integration, including encumbrance accounting, is used during the fiscal year for the Governmental Funds. Budgetary comparisons, therefore, are on an encumbered, non-GAAP basis.

		(Amounts expre	ssed	in thousand	ls)			
	General		State Public School Fund		Capital Projects		State Administered Federal Fund	Special Revenue Fund	Direct Federal Grants
Revenues over (under) expenditures and other financing sources (uses), Budgetary Basis	\$ 26	\$	(2,002)	\$	(67,706)	\$	(1,680)	\$ 1,324	\$ (921)
Decrease in Insurance Fund Balance	154		-		-		-	-	-
Encumbrances at June 30, 2015	43,317		2,002		70,412		1,680	722	510
Encumbrances at June 30, 2014	(41,404)		-		(1,286)		-	-	-
Change in Fund Balance, GAAP Basis	\$ 2,093	\$	-	\$	1,420	\$	-	\$ 2,046	\$ (411)

CMS operates under an annual balanced budget adopted and administered in accordance with the **North Carolina School Budget and Fiscal Control Act**. The State law promulgates a standard budget format, which defines budgetary control at the fund, purpose/function or project level. The State law also provides for budget amendments and transfers. The budget amounts reported in the financial statements reflect approved amendments and transfers made during the year.

Annual budgets are adopted for all funds, except the individual schools fund, as required by the North Carolina General Statutes. State law for individual school funds requires no budget. All budgets are prepared using the modified accrual basis of accounting. The primary sources of revenues for the General Fund are budgeted allocations and appropriations from the State of North Carolina, Mecklenburg County and the Federal Government. Unexpended allocations from the State of North Carolina generally lapse at the end of the fiscal year; unexpended federal program allocations lapse on the program termination date. If any appropriations from Mecklenburg County are unexpended at the end of the fiscal year, they are included in the ending fund balance of the General Fund.

The appropriations in the various funds are formally budgeted and controlled at the functional level. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds. By resolution of the Board, the Financial Officer, with the approval of the Superintendent, is authorized to transfer appropriations within a fund as follows:

- Proposed expenditures from State, Federal, or other sources of revenues, may be amended upon the receipt of
 information altering the anticipated revenues. A report of such budget amendments shall be made to the Board
 of Education on a monthly basis.
- Allocations may be transferred within a function with a report of such transfers made to the Board of Education on a monthly basis.
- Transfers between functions or from contingency appropriations may be made with a report of such transfers made to the Board of Education.
- Transfers between funds shall not be made without prior approval of the Board of Education.
- The Board and the Board of County Commissioners must approve transfers to or from the "Capital Outlay" allocation.

North Carolina state law prohibits school systems from raising funds via direct taxation or issuance of debt. Mecklenburg County raises revenue to be used by the school system for capital projects from bond issues. The Board approves capital projects on a project-by-project basis. Although projects may continue for longer than one year, detail budgets, including encumbrance accounting are used to manage the projects. Bonds are available to the school system as project costs become measurable and do not lapse at year-end. Capital project revenues recognized from the State of North Carolina represent funds available to county governments to help them meet public school facility capital needs. The Board obtains state funds through the County on a cost reimbursement basis. The funds do not lapse at year-end.

During the fiscal year there were no budget amendments in the general fund.

II. Assets, Liabilities, and Fund Equity

1. Deposits

All of the Board's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Board's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Board, these deposits are considered to be held by the agent in the entity's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Board or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Board has no policy regarding custodial credit risk for deposits.

On June 30, 2015, \$1.6 million of bank balances were covered by federal depository insurance and \$18.1 million were covered by collateral using the Pooling Method. Cash related to insurance reserves of \$13.7 million is held by the Division of Insurance and Risk Management, City of Charlotte, as administrator, for payment of insurance premiums or claims.

The carrying value of cash and cash equivalents at June 30, 2015 (expressed in thousands) is:

North Carolina Short-Term Investment Fund	\$ 151,119	
North Carolina Capital Management Trust	560	
Cash in Banks	18,612	
	\$ 170,291	

2. Investments

State statutes authorize the Board to invest in obligations of the U.S. Treasury; obligations of any agency of the United States of America, provided the payment of interest and principal of such obligations is fully guaranteed by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; certain non-guaranteed federal agencies; certain issues of commercial paper and banker's acceptances; the North Carolina Capital Management Trust (NCCMT), a SEC-registered (2a-7) money market mutual Fund; and the North Carolina Short Term Investment Fund (STIF).

The STIF is managed by the staff of the Department of State Treasurer and operated in accordance with state laws and regulations. It is not registered with the SEC. It consists of an internal portion and an external portion in which the board participates. Investments are restricted to those enumerated in G.S. 147-69.1.

At June 30, 2015, the Board of Education had \$560,400 invested with the North Carolina Capital Management Trust's Cash Portfolio which carried a credit rating of AAAm by Standard and Poor's. There was \$151,118,926 invested with the State Treasurer in the Short Term Investment Fund (STIF). The STIF is unrated and has a weighted average maturing of 1.5 years. The Board has no policy for managing interest rate risk or credit risk.

The Board's investments are reported at fair value as determined by quoted market prices. The NCCMT Cash Portfolio's securities are valued at fair value, which is the NCCMT's share price. The STIF securities are reported at cost and maintain a constant \$1 per share value. Under the authority of G.S. 147-69.3, no unrealized gains or losses of the STIF are distributed to external participants of the fund.

3. Cash and Cash Equivalents

The Board pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

4. Inventories

The Board uses the purchases method to account for inventories in the governmental funds. The inventories of the Board's General Fund consist of expendable materials and supplies, which are recorded as expenditures when purchased. At the end of each fiscal year, inventory and applicable expense accounts are adjusted to reflect actual inventory on hand. The inventories are valued at average cost.

The Board uses the consumption method to account for inventories in the proprietary funds. Inventories consist of food and supplies and are recorded as expenses when consumed.

5. Capital Assets

The Board's capital assets are recorded at original cost. Donated assets are listed at their estimated fair market value at the date of donation or forfeiture. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. Land, buildings and building improvements are recorded at historical cost or estimated historical cost if purchased or constructed.

The County holds title to certain properties, which are reflected as capital assets in the financial statements of the Board. The properties have been deeded to the County to permit the County to receive refunds of sales tax paid for construction costs. Agreements between the County and the Board give the schools full use of the facilities, full responsibility for maintenance of the facilities, and provides that the County will convey title of the property back to the Board, once all restrictions of the financing agreements and all sales tax reimbursement requirements have been met.

It is the policy of the Board to capitalize all capital assets costing more than \$5,000 with an estimated useful life of two or more years. In addition, library books purchased in large quantities are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Years
Buildings	35 - 50
Equipment	10 - 12
Library books	7
Vehicles and motorized equipment	6
Computer equipment	3

Land and construction in progress are not depreciated.

6. Deferred outflows and inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Board has two items that meet this criterion - a pension related deferral and contributions made to the pension plan in the current fiscal year. The statement of financial position also reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Board has one item that meets this criterion.

7. Unearned Revenue

Unearned revenue in the State Public School Fund, Special Revenue Fund and Direct Federal Grants Fund is principally for summer school tuition and programs for which funds have been received but not earned.

Unearned revenue in the Enterprise Funds represents registration and program fees received for the After School Enrichment Program and prepaid lunches for the Child Nutrition Program.

8. Compensated Absences

The Board follows the State's policy for vacation and sick leave. Employees may accumulate up to fifty-five (55) days earned vacation leave with such leave being fully vested when earned. For the Board, the current portion of the accumulated vacation pay is not considered to be material. The Board's liability for accumulated earned vacation and the salary-related payments as of June 30, 2015 is recorded in the government-wide and proprietary fund financial statements on a FIFO basis. An estimate has been made, based on prior years' records, of the current portion of compensated absences. Compensated absences are reported in governmental funds only if there is unused leave still outstanding at year-end following an employee's resignation or retirement.

The sick leave policy of the Board provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the board has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

9. Intergovernmental Expenditures

The 1997 North Carolina General Assembly passed legislation creating charter schools, an alternative to traditional public school education. Charter schools are separate entities and are not a component unit of the local school system. As part of the funding for charter schools, the legislation requires a portion of the local county funds designated for education to be redirected to charter schools.

The portion of local education funds redirected to the charter schools operating in Mecklenburg County in 2014-2015 was \$31,747,500. The amount was calculated in accordance with the legislation and passed through the Board.

10. Net Position/Fund Balances

Net Position in the government-wide and proprietary fund financial statements is classified as net investment in capital assets; restricted; and unrestricted. Fund Balance noted as restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or the law or regulations of other governments, or imposed by law through state statute.

In the governmental fund financial statements, fund balance is composed of four classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent. The government fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories – portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute – portion of fund balance that is restricted by State Statute [G.S. 115C-425(a)].

Restricted for Individual Schools – revenue sources restricted for expenditures for the various clubs and organizations, athletic events, and various fund raising activities for which they were collected.

Restricted for Insurance Claims – portion of fund balance that is restricted to meet claims incurred or expected to be incurred as determined by actuarial studies.

Assigned Fund Balance – portion of fund balance that Charlotte-Mecklenburg Board of Education intends to use for specific purposes.

Subsequent Year's Expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however, the budget ordinance authorizes the Superintendent to transfer appropriations as disclosed in the notes to the basic financial statements at Note I (D).

Special Revenue – portion of fund balance that will be used by special revenue fund activities, as determined by the governing body.

Unassigned Fund Balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds. The general fund is the only fund that reports a positive unassigned fund balance amount.

11. Capital Assets

Capital asset activity for the year ended June 30, 2015, was as follows (expressed in thousands):

Special Instructional \$ 64,214

12. Retirement Plan, Other Employment and Post-Employment Benefits

a. Teachers' and State Employees' Retirement System

Plan Description. The Board is a participating employer in the statewide Teachers' and State Employees' Retirement System (TSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the employees of Local Education Agencies and charter schools. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the TSERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Teachers' and State Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for TSERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation.

General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service (or 10 years of creditable service for members joining TSERS on or after August 1, 2011), at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (or 10 years of creditable service for members joining TSERS on or after August 1, 2011). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60 (10 years for members joining on or after August 1, 2011). Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

TSERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer (or 10 years of creditable service for members joining TSERS on or after August 1, 2011), or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Board employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the TSERS Board of Trustees. The Board's contractually required contribution rate for the year ended June 30, 2015, was 9.15% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Board were \$66.6 million for the year ended June 30, 2015.

Refunds of Contributions – Board employees who have terminated service as a contributing member of TSERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by TSERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Board reported a liability of \$66.8 million for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2013. The total pension liability was then rolled forward to the measurement date of June 30, 2014 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net pension liability was based on a projection of the Board's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating TSERS employers, actuarially determined. At June 30, 2014 and at June 30, 2013, the Board's proportion was .05%.

For the year ended June 30, 2015, the Board recognized pension expense of \$27.7 million. At June 30, 2015, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	ed Outflows Resources	 rred Inflows Resources
Differences between expected and actual experience	\$ -	\$ 15,571
Changes of assumptions Net difference between projected and actual earnings on pension plan investments	-	225,693
Changes in proportion and differences between Board contributions and proportionate share of contributions	_	3,454
Board contributions subsequent to the measurement date	66,636	-
Total	\$ 66,636	\$ 244,718

\$66.64 million reported as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2015. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2016	\$ (61,443)
2017	\$ (61,443)
2018	\$ (61,443)
2019	\$ (60,390)

Actuarial Assumptions. The total pension liability in the December 31, 2013 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	4.25 to 9.10 percent, including inflation and
	productivity factor
Investment rate of return	7.25 percent, net of pension plan investment
	expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2013 valuation were based on the results of an actuarial experience study for the period January 1, 2005 through December 31, 2009.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2014 are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Fixed Income	36.0%	2.5%
Global Equity	40.5%	6.1%
Real Estate	8.0%	5.7%
Alternatives	6.5%	10.5%
Credit	4.5%	6.8%
Inflation Protection	4.5%	3.7%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2013 asset liability and investment policy study for the North Carolina Retirement Systems, including TSERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.19%. All rates of return and inflation are annualized.

A new asset allocation policy was finalized during the fiscal year ended June 30, 2014 to be effective July 1, 2014. The new asset allocation policy utilizes different asset classes, changes in the structure of certain asset classes, and adopts new benchmarks. Using the asset class categories in the preceding table, the new long-term expected arithmetic real rates of return are: Fixed Income 2.2%, Global Equity 5.8%, Real Estate 5.2%, Alternatives 9.8%, Credit 6.8% and Inflation Protection 3.4%.

Discount rate. The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the net pension asset to changes in the discount rate. The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the Board's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.25%)	(7.25%)	(8.25%)
Board's proportionate share of the net			
pension liability (asset)	\$479.5 million	\$ 66.8 million	\$(281.7) million

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. Other Postemployment Benefits

1. Healthcare Benefits

Plan Description. The postemployment healthcare benefits are provided through a cost-sharing multiple-employer defined benefit plan administered by the Executive Administrator and the Board of Trustees of the Comprehensive Major Medical Plan (the Plan). The Executive Administrator and the Board of Trustees of the Plan establishes premium rates except as may be established by the General Assembly in an appropriation act. The Plan's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3 of the General Statutes and may be amended only by the North Carolina General Assembly. By General Statute, the Plan accumulates contributions from employers and any earnings on those contributions in the Retiree Health Benefit Fund. These assets shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries. These contributions are irrevocable. Also by law, these assets are not subject to the claims of creditors of the employers making contributions to the Plan.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the State's Comprehensive Major Medical Plan (also, referred to as the State Health Plan). An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page http://www.ncosc.net/ and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454 or by email: osc.web.team@osc.nc.gov.

Funding Policy. The Comprehensive Major Medical Plan is administered by the Executive Administrator and Board of Trustees of the Plan, which establishes premium rates except as, may be established by the General Assembly in an appropriation act. The healthcare benefits for retired and disabled employees are the same as for active employees, except that the coverage becomes secondary when former employees become eligible for Medicare. For employees first hired on and after October 1, 2006, future coverage as retired employees is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on and after October 1, 2006 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium. For employees hired before October 1, 2006, healthcare benefits are provided to retirees (at no charge to the retirees) who have at least five years of contributing retirement membership prior to disability or retirement. In addition, persons who became surviving spouses of retirees prior to October 1, 1986, receive the same coverage as retirees at the State's expense.

Contributions are determined as a percentage of covered monthly payrolls. Annually, the monthly contribution rates to the Plan, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the General Assembly in the Appropriations Bill. For the fiscal years ended June 30, 2015, 2014, and 2013, the School Board paid all annual required contributions to the Plan for postemployment healthcare benefits of \$40.0 million, \$37.4 million, and \$37.1 million, respectively. These contributions represented 5.49%, 5.4%, and 5.3% of covered payroll, respectively.

2. Long-term Disability Benefits

Plan Description. Short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan. The DIPNC is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System. Long-term disability benefits are payable as another postemployment benefit from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The Plan accumulates contributions from employers and any earnings on those contributions in the Disability Income Plan Trust Fund. The plan does not provide for automatic post-retirement benefit increases.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the DIPNC. An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page http://www.ncosc.net/ and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454.

Funding Policy. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in the Teachers' and State Employees' Retirement System of North Carolina, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from the Retirement System; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from the Retirement System after (1) reaching the age of 65 and completing five years of creditable service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of creditable service, at any age.

For members with five or more years of membership service as of July 31, 2007, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one twelfth of the annual longevity payment to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the Department of Veterans Affairs, any other federal agency or any payments made under the provisions of G.S.127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided in any event, the benefits payable shall be no less than \$10 a month. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS. For members who obtain five years of membership service on or after August 1, 2007, the monthly long-term disability benefit is reduced by the primary Social Security retirement benefit to which you might be entitled should you become age 62 during the first 36 months. After the first 36 months of the long-term disability period, the long-term disability benefit is reduced by an amount equal to a primary Social Security disability benefit. If approved for long-term disability benefits, an irrevocable election may be made to forfeit the long-term disability benefit and retire on an early service retirement allowance or receive a return of contributions from the Retirement System. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS.

The Board's contributions are established in the Appropriations Bill by the General Assembly. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The contributions cannot be separated between the amounts that relate to other postemployment benefits and employment benefits for active employees.

Those individuals who are receiving extended short-term disability benefit payments cannot be separated from the number of members currently eligible to receive disability benefits as another postemployment benefit. For the fiscal years ended June 30, 2015, 2014, and 2013, the Board paid all annual required contributions to the DIPNC for disability benefits of \$3.0 million, \$3.0 million, and \$3.1 million, respectively. These contributions represented .41%, .44%, and .44% of covered payroll, respectively.

Death benefits are provided through the Death Benefit Trust Plan (Death Plan) for member of the Plan, a multiple-employer State administered cost-sharing plan funded on a one-year term cost basis. Lump sum death benefits are provided to employees (1) who die in active State service after one year of contributing membership service in the Plan, or (2) who die within 180 days after the retirement or termination of State service and have at least one year of contributing membership service in the Plan at the time of death. The death benefit payment is equal to the employee's sequentially highest 12 months salary during the 24 months prior to death, but must be a least \$25,000 and no more than \$50,000.

Charlotte-Mecklenburg Schools does provide benefit eligible employees with paid basic term life insurance of \$9,300. Employees who are permanent full-time or part-time employees are eligible to receive the paid benefit. The benefit does not continue post-employment. The benefit is paid in the event of the employee's death while employed with CMS to the employee's designated beneficiary.

13. Commitments and Contingencies

State law requires that all contracts be recorded as encumbrances when signed. At year end, the Board's commitments with contractors for school construction totaled approximately \$64 million. These commitments will be funded by future revenues from Mecklenburg County.

CMS is involved in various pending and threatened claims and legal actions pertaining to the normal course of business activities. In the opinion of CMS's management, the ultimate resolution of these contingencies individually or in the aggregate will not have a material adverse effect on CMS's financial position.

CMS receives funds from state and federal grantor agencies that require periodic audits of the grant funds. Certain costs may be questioned during the audits as to appropriateness under the grant terms, and such questioned costs could result in a refund of grant monies to the grantor agency. CMS's management believes any required refunds resulting from such audits would be immaterial.

14. Risk Management

On July 1, 1993, the board established a Self-Funded Loss Program (the Program) administered by the Risk Management Division of the City of Charlotte Finance Department. The Program includes the following areas of risks: Commercial General Liability, Automobile Liability and Physical Damage, and Workers' Compensation. Property and other insurance coverage is purchased for risks that are best covered by an independent insurance carrier. There has been minimal change in the level of insurance coverage between years and no settlements by independent carriers have exceeded insurance coverage in the last three years.

The Program establishes a Loss Fund for accumulating resources to meet the financial needs of the Program not otherwise covered by insurance contracts. Contributions will be made to the fund as needed, preferably annually, in amounts believed to be sufficient to meet claims incurred or expected to be incurred as determined by actuarial studies. Payments for claims under the terms of the Program are limited to a total of \$1 million per any one occurrence for General Liability and Automobile Liability, \$500,000 per any one claim for Workers Compensation and \$25,000 per any one claim for property damage.

The Program is reported as part of the General Fund. The excess of revenues over expenditures in the amount of \$154,000 results in the increase in retained earnings from fiscal year 2014. The gain increases the prior year's net position of \$4.28 million to \$4.43 million.

The accounts payable related to self-insurance in the General Fund for the current and prior year is based on GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Claims liabilities are based on the estimated ultimate cost of settling the claims, which includes incremental claim adjustment expenditures/expenses (i.e. outside legal assistance) and estimated recoveries on unsettled claims as required by GASB Statement No. 30. The current portion of the claims liability was determined by using the average of the claims paid over the past three years. The changes in the accounts payable are as follows:

	2015	2014
Accounts payable, Beginning of year	\$ 7,550	\$ 6,341
Payments	(3,598)	(2,571)
Additions	 5,373	 3,780
Accounts payable, End of year	\$ 9,325	\$ 7,550

In accordance with G.S. 115C-442, the Board's employees who have custody of the Board's monies at any given time are performance bonded through a commercial surety bond. The finance officer is bonded for \$250,000. The remaining employees who have access to funds are bonded under a blanket bond for \$250,000.

15. Long-Term Obligations

a. Capital Leases

The Board leases equipment that is accounted for in the General Fund and is reflected in the government-wide statements. Assets recorded under capital leases at June 30, 2015 amounted to \$1.2 million. Accumulated depreciation relating to these assets was \$1.1 million.

Under the terms of these leases, the Board's obligation to pay is contingent upon continued appropriation of funds by Mecklenburg County for that purpose. At the end of the lease period, the lessor will transfer title of the equipment to the Board.

The following is a schedule by year of future minimum lease payments and present value of the net minimum lease payments as of June 30, 2015 (expressed in thousands):

Year Ending June 30:

2016	\$ 119
2017	50
Total Minimum Lease Payments	 169
Less: Interest	 (3)
Present Value of Net Minimum Lease Payments	\$ 166

The Board also has various annual lease agreements principally for office equipment, which are classified as operating leases. Operating lease expense for the year ended June 30, 2015 totaled \$834,303.

b. Installment Purchases

The Board is authorized to finance the purchase of school buses under G.S. 115C-528(a). Session law 2003-284, section 7.25 authorized the State Board of Education to allot monies for the payment, on financing contracts entered into pursuant to G.S. 115C-528. The State has accepted the bid to purchase Thomas Built Buses through a special third party financing arrangement.

The future minimum payment of the installment purchase as of June 30, 2015 (expressed in thousands), is as follows:

Year Ending June 30	Governn	ment Activities
2016 2017 2018	\$	123 123 103
Total Payment	\$	349

c. Compensated Absences

The Board follows the State's policy for vacation leave. Employees may accumulate up to fifty-five (55) days earned vacation leave with such leave being fully vested when earned. Compensated absences as of June 30, 2015 are as follows:

Government Activities	\$ 73,343
Proprietary Funds	\$ 1,815

d. Energy Performance Contract

The Board has an Energy Performance Contract Agreement for the purpose of furnishing certain professional services designed to reduce energy consumption and operational costs. The agreement is financed by Wells Fargo Bank. Energy savings resulting from the project are expected to equal or exceed the total costs payable.

The annual debt service requirements for the Energy Performance Contract Agreement (expressed in thousands) are as follows:

Year Ending	Principal	Inte	Interest		
2016 2017 2018	\$ 529 548 567	\$	54 35 15		
Total Payments	\$ 1,644	\$	104		

e. Debt Outstanding (expressed in thousands)

The following is a summary of changes in the Board's debt outstanding for the fiscal year ended June 30, 2015:

Governmental Activities		Balance July 1, 2014		Increases		Decreases		Balance June 30, 2015		Current Portion
Capital Leases Installment purchases Compensated absences Energy Performance Contract Total Governmental	\$ 	441 4,690 72,051 2,154 79,336	\$ \$_	- 493 7,790 - 8,283	\$	275 4,834 6,498 510 12,117	\$	166 349 73,343 1,644 75,502	\$ 	116 123 6,498 529 7,266
Business Type Activities Compensated absences Total Business	\$ \$	2,198 2,198	\$_ \$_	<u>-</u>	\$ \$	383 383	\$ \$	1,815 1,815	\$_ \$_	232 232

Compensated absences and capital leases are typically liquidated by the general and other governmental funds.

16. Interfund Balances and Activity (expressed in thousands)

Transfers to/from other funds for the year ended June 30, 2015, consist of the following:	Amount
From the State Public School Fund to the Child Nutrition Fund for administrative costs From the General Fund to the Child Nutrition Fund for uncollectible meals sales	\$ 46 471
	\$ 517

17. Fund Balance (expressed in thousands)

The Board of Education has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-board of education funds, board of education funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly, unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board of Education.

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation.

Total fund balance – General Fund	\$ 75,872
Less:	
Inventories	931
Stabilization by State Statute	45,422
Insurance Claims	4,437
Appropriated Fund Balance in 2016 budget	9,200
Remaining Fund Balance	\$ 15,882

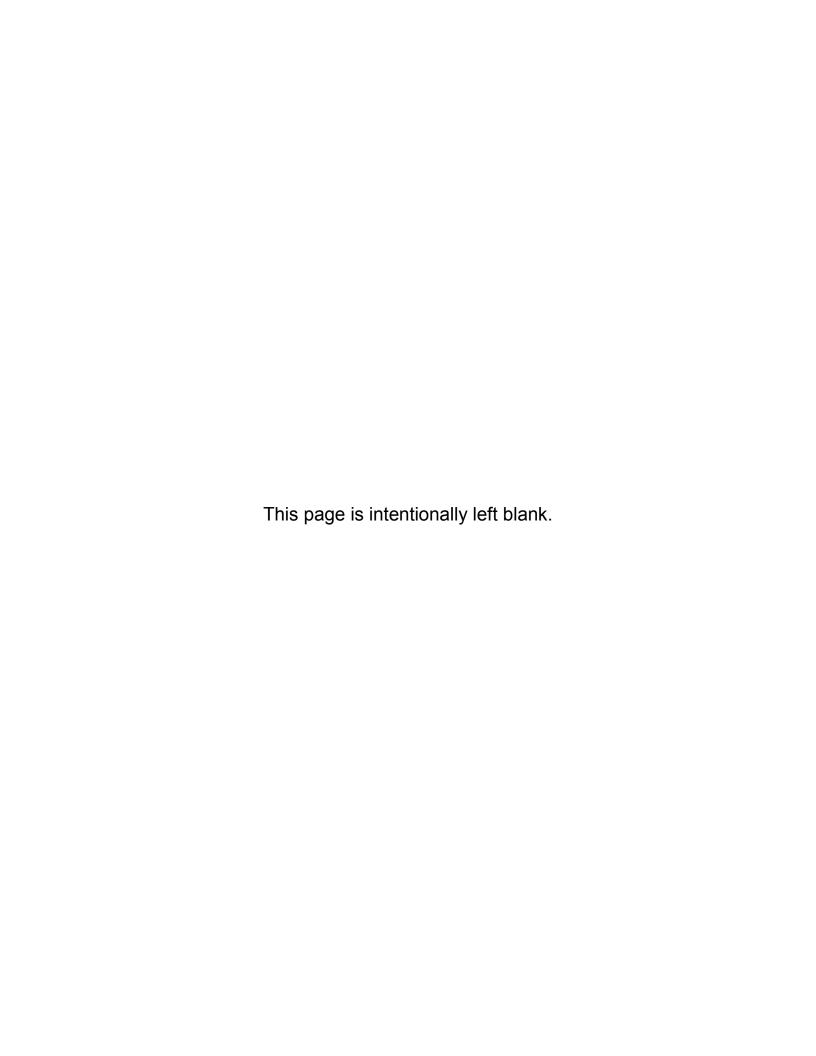

18. Encumbrances (expressed in thousands)

Encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end.

General Fund	\$ 43,317
State Public School Fund	\$ 2,002
Capital Projects Fund	\$ 70,412
State Administered Federal Fund	\$ 1,680
Special Revenue Fund	\$ 722
Direct Federal Grants Fund	\$ 510

19. Change in Accounting Principles/Restatement

The Board implemented Governmental Accounting Standards Board (GASB) statement 68, Accounting and Financial Reporting for Pensions (an amendment of GASB Statement No. 27) in the fiscal year ending June 30, 2015. The implementation of the statements required the Board to record beginning net pension liability and the effects on net position of contributions made by the Board during the measurement period (fiscal year 2014). As a result, net position for the governmental and business-type activities decreased by \$278.3 million and \$5.5 million, respectively.

Comprehensive Annual FINANCIAL REPORT

Statistical Section

STATISTICAL SECTION (UNAUDITED)

This section of Charlotte Mecklenburg Schools' Comprehensive Annual Financial Report presents detailed information for understanding what the information in the financial statements, note disclosures, and required supplementary information says about CMS' overall financial health.

Contents	Page
Financial Trends	54-92
These schedules provide trend information to help the reader understand how	
CMS' financial performance and well-being have changed over time.	
Revenue Capacity	93-95
Since CMS revenues are primarily provided by Mecklenburg County, these	
schedules on the county's revenue sources are relevant to an understanding	
of Mecklenburg County's most significant local revenue source, the property	
tax.	
Debt Capacity	96
Since CMS construction funding is primarily provided by Mecklenburg County,	
these schedules of the county's debt capacity assist the reader in assessing the	
affordability of Mecklenburg County's current levels of outstanding debt and	
Mecklenburg County's ability to issue additional debt in the future.	
Demographic and Economic Information	97-98
Details found in these schedules offer demographic and economic indicators to	
aid the reader in understanding the environment within which CMS' financial	
activities take place.	
Operating Information	99-109
These schedules contain select operating indicators to help the reader understand	
how the information in CMS' financial report relates to the services CMS provides	
and the activities it performs.	

Charlotte-Mecklenburg Board of Education Facts and Information About Mecklenburg County, North Carolina

Charlotte-Mecklenburg was first settled by Scots-Irish immigrants in the 1740's. The County of Mecklenburg was established in 1762 and the City of Charlotte was incorporated in 1768. The city was named for Queen Charlotte, wife of England's King George III. The county was named for her birthplace, the German principality of Mecklenburg.

Charlotte grew as a crossroads of commerce with effective government and a strong business environment. In 1799, America's first major gold discovery occurred near Charlotte. The city quickly became the center of gold production in the United States until the California Gold Rush of 1849.

The Charlotte area became industrialized in the late 19th century when the "Cotton Mill Campaign" brought the textile industry from the New England area to the Carolinas. The first graded school system was established in Charlotte in 1882 with an enrollment of 500. Prior to that there had been a separate male academy and female institute. By 1903, over half of the textile production in the United States was located within a 100 mile radius of Charlotte. The Charlotte school system had grown to 2,600 pupils, the largest school system south of Baltimore.

By 1949, the Charlotte school system had an enrollment of 20,000 students and employed 672 staff. Railroads and the early development of an excellent state highway system encouraged the development of wholesale and distribution facilities in Charlotte to serve the Carolinas and Southeastern United States. Today, because of on-going attention to transportation development, over half of the population of the United States can be reached from Charlotte within one hour's flight time or one day by truck.

In 1960, the city and county school systems were consolidated resulting in the Charlotte-Mecklenburg Board of Education.

Facts of interest about the Charlotte-Mecklenburg Schools:

A Profile of the Charlotte-Mecklenburg Schools

The Charlotte-Mecklenburg School System serves more than 145,000 students and has experienced continued enrollment growth for the past few years. The school system is consolidated and serves students who live in the city of Charlotte, in Mecklenburg County and in all the small towns and communities throughout the county.

The Charlotte-Mecklenburg School System does not discriminate against any person on the basis of sex, national origin, race, ethnic background, color, religion, age or disability in any of its educational or employment programs or activities.

The system operates 93 elementary schools, 9 PreK-8 schools, 30 middle schools, 28 high schools and 4 special programs.

ORGANIZATION

The Charlotte-Mecklenburg Board of Education has nine members, three elected at large and six elected by district. Members serve four-year terms. The Board appoints the superintendent.

The school system is administratively divided into seven geographic communities. Under this plan, each school becomes more closely aligned with the community it serves. It puts resources and administration closer to the parents and other members of the public. Learning Community Superintendents are assigned administrative responsibilities for these sections. There is a rich variety of school offerings that attend to the learning styles and interest of all students. Many schools use new and innovative techniques and strategies, and technology is stressed in all schools.

Performance Standards have been developed for all grades and courses and criterion-referenced tests ensure that high standards are maintained. Site-based management is an expectation for all schools.

ELEMENTARY SCHOOLS

The school system provides free kindergarten. Attendance is not required but is recommended highly. Students must be five years old on or before August 31 to be eligible for kindergarten.

The elementary curriculum is standardized to ensure that each child receives a quality education in the basics of language arts, social studies, math, science, health and physical education. A strong emphasis is placed on literacy in the primary grades and computers are used in all elementary schools.

MIDDLE SCHOOLS

Middle schools, for grades six through eight, use a team approach where each instructional team teaches one group of students. This approach allows teachers to personalize instruction and helps ease the transition from elementary school.

The middle school instructional program emphasizes language arts, math, science and social studies while allowing students to explore interests through pre-vocational, fine arts, and foreign language courses. There is a diversified program of physical activities which includes intramural sports.

MAGNET SCHOOLS

The Charlotte-Mecklenburg School System is committed to the magnet school concept, with 9 magnet programs operating in 43 schools. Each program focuses on an area of special interest such as Visual and Performing Arts, STEM, World Language, and IB, or an instructional style such as Montessori or Traditional. Selection is based on application with approximately 19,000 students attending magnet programs.

A Profile of the Charlotte-Mecklenburg Schools

HIGH SCHOOLS

The Charlotte-Mecklenburg School System has stringent graduation requirements. A hybrid form of the Four by Four Scheduling Format is used in the high schools.

High schools offer a variety of courses from those that reinforce basic skills to advanced ones. Students may earn college credits or take advanced vocational courses through a special agreement with Central Piedmont Community College.

Sixty-one percent of the system's high school students, compared to only fifty-two percent nationwide, take the Scholastic Aptitude Test. (SAT). Local scores are above the North Carolina average but below the national average. Programs are in place in each high school to help students boost their scores. All 10^{th} graders take the preliminary SAT as exposure to the actual test.

STUDENTS WITH SPECIAL NEEDS

The school system provides services to students with special education needs. Programs operate for students who meet eligibility in the following Intellectually Impaired, areas: Learning Disabled, Traumatic Brain Injury, Emotionally Disabled, Orthopedic Impairment, Autism Spectrum Disorder, Speech Language Visual Impairment, Impairment, Deafness, Hearing Impairment or Other Health Impairment. Most services are provided in the regular school setting. Services are also provided in separate programs located at Metro School and Lincoln Heights Academy.

Services are also provided in separate programs at Dolly Tate Teenage Parent Services for pregnant students, Hawthorne High for students with difficulties in traditional school settings, a Child's Place for students whose families are homeless, Turning Point Academy for students at risk of dropping out, and Northwest School of the Arts for the artistically talented.

A program also is available for students whose native language is not English. The English as a Second Language program concentrates on helping students adjust to a new language and culture so they can be successful in a regular classroom setting.

BEFORE AND AFTER SCHOOL CARE

Mecklenburg County has a high percentage of working parents. As a result, before and after school care for children is a problem for many parents.

In response to that problem, before school and after school care is provided at many schools. The programs serve children in pre-kindergarten through middle school for a weekly fee.

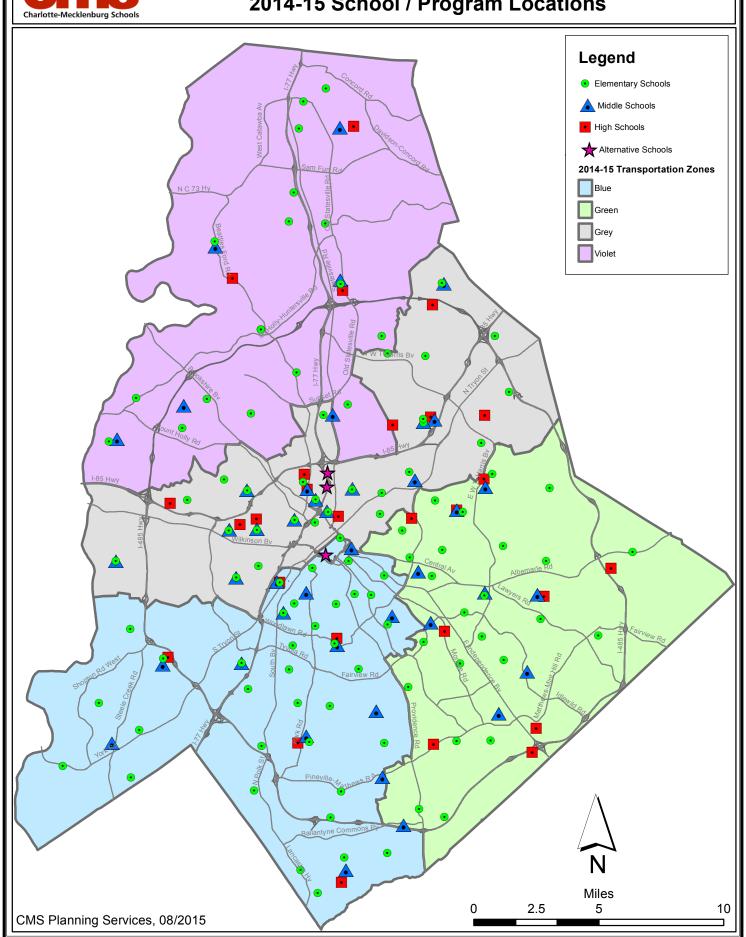

The programs offer students supervised recreational, snack and homework time and opportunities for cultural enrichment.

PRE-KINDERGARTEN PROGRAM

The Pre-Kindergarten Program, initiated in 1996, serves over 3,500 four year olds at distributed sites. This innovative and creative full day program focusing on language development and literacy is designed for children who demonstrate educational need. The program is funded by federal and local sources.

Source: Mecklenburg County, North Carolina, Comprehensive Annual Financial Report for the Year Ended June 30, 2014 (most current information available).

The above data is provided for information as the Charlotte-Mecklenburg Board of Education has no direct taxing authority and Mecklenburg County levies no specific taxes solely for the Board of Education. Mecklenburg County transfers funds accruing to the Board of Education under Article IX, Section 7 of the North Carolina Constitution.

Nominal dollars reflect actual dollars of the period of the transaction. Constant dollars reflect dollars having a constant general purchasing power as shown by the Consumer Price Index for all Urban Consumers (CPI-U) (Calendar years 1982-84=100).
