CLASSROOM INFORMATION

Homework- It is an extension of what we learn in class. The scholars have a comprehension passage with questions for each night and they have math pages for each night. The homework folder will come home on Mondays and is to be returned on Friday with the completed weekly homework inside.

Reading is to be one of their nightly assignments. Please have your child read a book from your home library each night. They should retell the text to you after they have read it. This provides comprehension and fluency practice at home.

Newsletters- Newsletters will be sent out every two weeks. This will have information on upcoming events and important information from the school.
