

Admissions

BCE Elementary School:

Admission to IB schools in Charlotte-Mecklenburg Schools takes place via a randomized lottery process conducted each winter for the following school year. There are no entrance requirements for admission to elementary school, and once placed in an IB PYP school, students remain in the school unless they move or choose a different school in a subsequent lottery.

Billingsville Cotswold (BCE) has an annual recruitment and marketing plan. The PYP coordinator attends Pre K open houses to market the school's IB program to a broad and diverse range of prospective parents. BCE provides a number of open Houses to attract families and secure magnet seats. Providing informational sessions to multi-lingual (ML) families are provided to inform, attract and recruit students to secure magnet seats, The open house attendance documents and emails are reviewed to assess its effectiveness. Reviewing the magnet seats 'wait list also serves as assessing BCE's marketing and recruitment success.
