

## J.T. Williams *School Design Project*

### Design Only Project

The 2023 general obligation bond referendum presents us with a unique opportunity to enhance the learning environment and educational opportunities for our students. It aims to offer more academic options, alleviate overcrowding, and support safe schools. Here are the highlights of the project that will impact our school communities:

### School Board Member District 2

The J.T. Williams design-only bond project represents the final phase dedicated to optimizing the school's facilities to cater to Alternative Education needs. While in the design stage, the project aims to create a tailored environment that best supports the unique requirements of alternative education programs. By focusing on design enhancements, the initiative seeks to provide a functional and adaptable space that fosters innovative and effective learning experiences for students in the Alternative Education program at J.T. Williams.

### Estimated Cost: **\$1,647,753**

### Questions for CMS?
